Who Wants Her?

An advertisement in a Berlin paper anounces that "a young noblewoman, having a large fortune and holding a distinguished position, who is as lovely as Helen, as good a housekeeper as Penelope, as economical as the Electress Marianne of Brandenburg, and as *spirituelle* as Mme. de Staël, who sings like Jenny Lind, and dances like Cerito, plays the piano like Rosa Kastner, and the harp like Bertrand, but who is as austere as Lucretia, having no masculine acquaintances, seeks a husband."

American Salmon.

London News.

Henry Labouchere has tried some of our salmon that has been sent over frozen from America, and does not think much of it. "Pickled it is well enough," he says, "but when boiled there is as much difference between it and good Scotch or English salmon as there is between eating wool and mutton.

Fell and Broke His Neck.

In the case of Edward Maxwell, who was dragged out of a court-room by lynchers at Durand, Wis., the noose killing him before the mob got him to a tree, a coroner's jury has declared that he "fell from the court-house steps and broke his neck."

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish herewith the fac-simile signatures of parties whose sincerity is beyond question. The truth of these testimonials is absolute, nor can the facts they announce be ignored.

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

S. W. Whitbeck

Mayor of Moline.

CHICAGO, May 30, 1881.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIRS: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and am a well man to-day.

C. N. Harris

"Carl Pfeifer"

Thousands of equally strong endorsements—many of them in cases where hope was abandoned—have been voluntarily given, showing the remarkable power of Warner's Safe Kidney and Liver Cure, in all diseases of the kidneys, liver or urinary organs. If any one who reads this has any physical trouble, remember the great danger of delay. dec9

BELL TONGUE SYRUP,

AN ACCIDENTAL DISCOVERY OF great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PANACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by

THE SUN.

1882. NEW YORK. 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic, depraved and virtuous, intelligent and obtuse. THE SUN'S light is for mankind and womankind of every sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.

THE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way, all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years past has been modelled after THE SUN. Every important journal already existing has been modified and bettered by the force of THE SUN'S example.

THE SUN of 1882 will be the same outspoken, truth-telling and interesting newspaper.

By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bokhara.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN'S political course.

THE WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequaled merit, full market reports, and a liberal proportion of literary, scientific and domestic intelligence complete the WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like THE SUNDAY SUN, each number of which is a Golconda of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little?

If our idea of what a newspaper should be pleases you, send for THE SUN.

Our terms are as follows:

For the daily SUN, a four-page sheet of twenty eight columns, the price by mail, post-paid, is 55 cents a month, or $6 50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or $7 70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1 20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

IS ANYBODY TO BLAME?

It will be interesting to note how the authorites in Vienna will treat the managers of the Ring theatre, who were responsible for the terrible disaster of Thursday last. They say that in the old country some one has to account for such occurrences. This is another proof of the lack of freedom which obtains in monarchies.

While we are justly proud of a people upon whom we can depend for partial self-government, we are beginning to realize that men cannot be trusted ro resist certain passions. When Avarice takes hold of a man and overcomes his scruples, that man becomes a public enemy, and unless the law reprove his omissions and commissions swiftly and summarily, he will sacrifice the lives and property of others to satisfy his greed.

Every class, in whom the public are obliged to place any degree of confidence, should be punished severely and speedily for the slightest breach of that confidence.

A glance at the daily list of disasters and casualties, which ordinary care would have prevented, will show clearly that the administration of our laws in that behalf is more deficient than even the laws themselves.

A POLITICAL GHOST.

Jefferson Davis, the ghost of the dead Confederacy, has retured from Europe, and finds time merely to say that reconciliation between the North and South is impossible.

Davis still labors under a delusion that he is of some importance, and that the Confederacy has one breath left in its body. These are mistakes, and the arch-rebel should be informed of the fact.

There was a very respectable attendance at the funeral of the Davis cause. It took place at Appomattox, and as Garfield said, it was "shot to death by the million guns of the Republic."

The last relic of importance which attached to the person or opinion of Jeff Davis, was burned with the petticoat which he wore when captured.

When Davis learns these truths he will realize that he has a career—behind him, and that experience has fitted him only to adorn the most perfect obscurity.

EDITORIAL NOTES.

Assassin Guiteau is a wag. He and Judge Cox are having a great deal of sport. The assassin, to a witness: "I do not care a snap about notoriety. I have told you three or four times you lie. That settles you. I will not condescend to notice you again."

"Silence!" says Cox. The witness is silent.

General Sherman talks sense to young army officers. He tells the Washington bucks that as they were directed to wear mourning for President Garfield six months, it does not look well for them to organize a club for dancing the German within that time.

The remarkable information has been obtained by the Troy *Times* that "in one of the New York theatres half of the actresses are amateurs, and belong to good New York families."

The paper money circulation of this country now amounts to $723,838,021, not including paper certificates. There are $361,220,003 national bank notes, and $462, 618,021 legal tenders.

The President of the Canadian Pacific Railway says that if no unforseen difficulties intervene the road will be built and in runing order by five years from next summer.

The genial reporter who sends us daily and detailed accounts of what the Administration will do next year, will please confine himself to matters within the range of his eye.

That genial flow of wit and laughter which characterized Assassin Guiteau during the first days of his trial seems to have deserted him.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

THE ASSASSIN MAD.

He Calls Everybody a Liar and a Whelp—Objects to the Course of the Prosecution as Calculated to Damage His Reputation.

In the Guiteau trial yesterday Stephen English, editor and proprietor of the *Insurance Times*, of New York, took the stand.

Guiteau called out: "This man was in Ludlow street Jail, and I got him out for $300."

Witness gave the circumstances under which he became acquainted with the prisoner. Witness was under $40,000 bonds charged with libel. The prisoner acted as his attorney.

Gutteau frequently and noisily interrupted the witness, calling him a liar and perjurer. At one time he shouted: "There isn't an insurance man in New York that don't know what a fraud you are."

Witness continued—Prisoner swindled me out of $300, and also swindled many poor creatures in jail by promising to help them, and getting their money, and then never raising a finger in their behalf.

Guiteau shouted at witness: "Why, I wouldn't spit on you in the street, you old scoundrel. I'll get some insurance man to show you up, you old fraud."

Witness was asked if he ever detected any signs in the prisoner of insanity, and replied: "On the contrary, he was a remarkably clear-headed, shrewd lawyer. He completely outwitted me."

Warren G. Brown, attorney-at-law, New York, testified, he believed Guiteau to be perfectly sane.

Guiteau (excitedly)--I want to know, Corkhill, what all this kind of evidence has got to do with the real issue—who fired the shot that killed Garfield, the Deity or I. I think it devilish mean to rake up my character in all its details.

After recess various witnesses were introduced, who testified to their belief in Guiteau's sanity and his roguery in business transactions.

This much enraged the prisoner and he called them each in turn a liar and perjurer.

"It makes me mad," he continued wildly, "to think that the prosecution should attempt to ruin my professional character when they know it is a lie. It is a shame that these men, Corkhill and Porter, should slobber over my character. The only thing against me is that I owe some board bills and that I committed adultery in order to get rid of my wife."

The Court (steraly)—That will do.

Prisoner—I have got through now. I have made my final speech on this matter.

Prisoner continued his abuse of the witnesses, using among others the following expressions:

"He is a Jew, and a dirty one at that." "You didn't know anything about it, you miserable Jew." "You are a dirty-lived puppy to come here and lie about me in that way."

D. McLean Shaw testified that Guiteau told him he was bound to have notoriety some how or other; that he might kill some big man and imitate John Wilkes Booth.

The prisoner shouted, "Thats a lie; I have not known anything about this man Shaw for eight years, but when he reports this kind of testimony, I say to him, 'you are a liar.' I never had that kind of a conversation with you in my life, and you know it. You claim to be a good church man, too. That story is false from beginning to end and you are a sneaking liar. That is my opinion of you."

The witnesses concurred in establishing Guiteau's sanity and his efficiency as a dead beat.

Disastrous Explosion.

PITTSBURG, December 10.

A boiler burst in the Keystone rolling mill here, killing one and wounding ten. There were 350 employes in the mill, and it was a frightful scene of excitement. Pieces of the boiler went 400 yards, and some of them did serious damage. The cause is unknown. John Quinn, a fireman, was killed and it is thought Alvin Gideon will die.

Death in the Flames.

NORRISTOWN, N. J., Dec. 9.

Miss Hunter's boarding house, South street, burned this morning. Mrs. Anna Walsh, boarder, and Lizzie Ketch, a servant, perished.

Washington Political News.

WASHINGTON, December 10.

Both parties have begun to plan for next year's canvass. The Republicans believe they have a hand on the South, and will make efforts there; breaks will be encouraged every way, and the Republicans expect thirty or forty congressmen from the South next year who will be anti-Democrats. Special efforts will be made in Maryland, Virginia, North Carolina, Tennesee, Arkansas, and Texas. There are many divisions among machine Democrats in North Carolina, Arkansas and Tennessee over the debt question. The Federal patronage will be used as a bait to secure leaders. The Democrats are alarmed, but rely on the color line to prevent a break. Murch is quoted as having assurance of good treatment on committees. The tariff is daily becoming a more vital party question.

The free traders will oppose a bill for the tariff commission. The bill will pass, however, by a large vote.

Sparks believes Illinois will go Democratic on the tariff issue.

A Monster Disposed of.

LITTLE ROCK, December 10.

Howard Edmunds was executed at Warren, Bradley county, yesterday, for the murder of his cousin and sister-in-law, Miss Sallie Watson. The crime was one of the must inhuman in the annals of criminal history in this State. Not only had he deliberately seduced the young, beautiful and accomplished sister of his wife, but in order to prevent detection when her condition became known, killed her with an axe. There was not one palliating circumstance connected with the horrible affair.

He requested that a psalm be sung on the scaffold. He stood the ordeal without a tremor, and had a good many words to leave to his children. He was swung off and died with his neck broken.

Wild Descent of a Freight Train.

ST. LOUIS, December 9.

The ill-fated freight train which went down through the St. Charles Bridge, over the Missouri river last night, was freight No. 12, eastward bound. By the schedule, it crosses just before the Warren accommodation train, meeting the latter at Brotherton. There was an engine and tender, thirteen cars loaded with live stock and eighteen with other freight and a caboose. These all went down. Three of the six men on the train when it started over the bridge accompanied it on that wild leap of sixty-five feet into the river channel, and that two of them escaped to tell of their awful experience seems a miracle. One only is missing, Jack Kirkby, the engineer, who stuck to his post.

NEW YORK, December 10.

The *Times* reviewing Gorham's letter to Mahone, says: "When the President of the United States is reduced to the necessity of using George Gorham as a means of communicating his views on any subject, there will not be much dignity left in the Executive office, and we should like to hear better evidence than that of Gorham that his letter is anything more than a piece of gratuitous impertinence."

Two Murderers Killed.

SPRINGFIELD, Mo., December 10.

Two brothers, Hiram and Valentine Mercer, resisting arrest in Decatur county, Ia., last November, killed a Deputy Sheriff and fled to the farm of their brother, near here. The officers laid for them, and, surrounding them while they were out hunting, a fight ensued in which both the outlaws were killed.

Terrible Loss of Life by Fire.

PITTSBURG, Pa., December 10.

A terrible and shocking holocaust occurred at Rock Cut, seven miles from this city, this morning about 3 o'clock. The fire occurred in a frame boarding house, located on the line of the Pittsburg and Lake Erie railroad. It was set on fire by the explosion of a lamp, and of forty persons known to be sleeping there, only 24 escaped alive, and even they, were all more or less burned. Not one of them succeeded in securing their clothing, so rapid was the progress of the flames. The laborers were huddled together in bunks in the loft, which had no opening for egress, except a ladder from the lower floor.

Mr. Koun, the proprietor, succeeded in escaping with his wife and girls, but could not do more than call upon those up stairs to escape for their lives.

Following is a list of the missing or dead. There are others yet to be added to the list: Patrick Foley, Michael Donohue, Thomas Foster, James Curran, John Reilly, John Kennedy, Jerry Hanlon, John Connors, John Connelly and John Duffy. Among those sent to the hospital are John Connelly, Martin Taffey, Michael Morgan, Michael Leonard, Hugh McKeon and W. Barr.

FOREIGN.

The Great Vienna Fire.

NEW YORK, December 10.

Specials from Vienna have the following additional details of the Vienna fire. The extent of the calamity has hitherto been much understated. One thousand one hundred and thirty persons are announced at the police bureau as missing, and assuming that many of them will turn up, it is feared that the total loss will not be much less than 1,000 persons. It is now probable that there were 600 in the fourth gallery. All persons in the third row of the parquette perished. Some persons who entered the theater a few minutes after the fire was discovered, remarked at the time, that comparatively few escaped. Two bank officers and twenty members of the fruit exchange are missing. A score of medical students are among the victims. The majority of the dead are hard-workers, clerks, and people of limited means. The Vienna fire department proved itself supremely inefficient.

Persons who have seen the dead in the fourth gallery say the bodies are all lying in position as they had fallen together, in convulsive, clinging masses. They were unable to leave the gallery because the doors opened inward.

Scenes at the Vienna Morgue.

VIENNA, December 10.

The dead bodies at the morgue and at the krankenhause tell more of the terrible death which the victims met, than any report that an eye-witness has yet given. Some appear to have died from suffocation alone.

Two beautiful girls are there, with their faces scarcely discolored, looking as if they were only sleeping.

Another youthful female form lies there, only one charred stump of her neck remaining, while her body and lower extremities are untouched.

Most of the better preserved bodies show one arm uplifted, as if struggling for freedom, while the other hand is closely pressed to the mouth, to exclude the destroying breath of the fire. Others have the heads and upper part of the bodies without disfigurement, while the feet and legs are charred off. Other victims are represented by the trunk alone, the heads, feet and legs being missing.

Other bodies retain the form of the last desperate struggle, the features expressing the first cramp of agony. Others are fair women, some with diamond rings still glittering on their fingers, the only object by which they can be recognized. Some have been trampled to death and then partly consumed by the fire, while others have their skulls crushed in and their limbs distorted and broken.

News From Ireland.

DUBLIN, December 10.

O'Connel, M. P., speaking here said Forster had refused to release Dillon, despite the recommendation and letters of the doctor.

Among seven persons arrested in the vicinity of Castle Island, under the Coercion Act are Reed, Coffin and Maloney, lately returned from America.

Two more prominent members of the Land League have been arrested in Cork under the Coercion Act.

Who Was to Blame?

VIENNA, December 10.

There is to be a searching official inquiry into the cause of the Vienna fire and who is culpable. The Vienna press demand that all the theatres in the city, with the exception of the Opera House, be closed at once and not allowed to reopen until all the entries, exits, galleries and passages are rebuilt so as to assure safety to the audience.

Fire in San rancisco.

SAN FRANCISCO, December 10.

Just before 1 o'clock to-day a fire broke out in D. Lundy's furniture store, No. 811, Market street, a little below and opposite the Baldwin Hotel. The adjoining lots were built up with one-story frames, and in a few minutes four of them were in flames, and were consumed with their contents. The buildings belong to the Lick estate, and the occupants, besides Lundy, were Clarence Healy, restaurant; John N. Saftstean, furrier; Wm. Blunt, taxidermist; John Q. Garfield, M. O'Shea, books and stationery: A. Koch, crockery, Gordon, Tailor, Knight and Jonston, photographers, and Madam Scotter, hair-dealer.

An Indian Murderer.

Yesterday, says the *Silver State*, two Piutes arrived here from Palisade, with the Indian who recently murdered one of his tribe at Austin and seriously wounded his wife. They arrested the murderer at Palisade. He is an intelligent-looking and well dressed Indian. His victim was his sister's husband, who, he says, mistreated him on every occasion. His captors, Paradise Charley and Captain Jim, took him to Big Meadows, where he is to be tried before Chief Natches. He was permitted to get off the train here and talk with the other Indians. It is probable that Captain Breckinridge, of Stillwater, to whose band the murderer belonged, will be called on to pass judgment in the case, and decide whether or not he shall be beaten to death.

How to Estimate Ore in Sight.

The following, from an exchange, may prove valuable to miners who desire to know how much ore they have in sight: One cubic foot of lead ore weighs 474 pounds; thus, a vein of galena, or lead ore, one foot wide, six feet high and six feet long (otherwise a fathom) will produce eight tons five hundred and thirty-two pounds, or a vein one and one-half inches wide will net one ton of ore per fathom; three inches wide, two tons; six inches wide, four tons. This rule will be a safe guide to estimate by.

A BIG BUILDING.

What it Takes to Make the Nevada Insane Asylum.

The Asylum is so nearly finished that it is as good as done so far as newspaper items are concerned. It is plainly seen from all parts of the valley and is a great improvement. It stands two stories of fine brick walls with a handsomely striped mansard roof and a stone basement. It is 150 feet north and south and 230 feet east and west. It is 62 feet to the top of the main tower and 50 feet to the top of the roof. There were used in its construction 752,000 bricks and 1,450 perch of stone; 75,000 shingles cover it; 400,000 feet of rough lumber, 60,600 feet of flooring and 106,000 feet of clear lumber went in; 15,600 square feet of tin were used. There are 1,100 feet of gutter on the cornice; inside are 22,500 yards of plaster, requiring 230,000 lath; 100 tons of lime went into plaster and walls; 20,000 feet, nearly four miles, of water and heater pipe were necessary. There are 380 windows, using 6,840 square feet of glass; 225 doors and transoms; 250 iron anchors were used in the wall. They run from 2 to 30 feet in length. There are 15,000 yards of paint and over a car load of nails. There are 6 tons of sash weights and 84,000 feet of baseboards; 1,500 feet of iron-stone sewer pipes; 400 registers and ventilators. There are 80 angles in the outline, and there are over 1,000 feet in the outside wall. A tank in the main tower, lined with lead, holds 3,000 gallons of water, and there are 6 two-inch fire-plugs on each floor with 60 feet of hose. There are 46 coils for direct steam heating with 3 large boilers in the basement to draw upon. Every room has a foul air outlet and a fresh air inlet running from basement to roof. There are 6 dining rooms, with 2 elevators for food. There are 1,190 feet of hall, 3 on each floor. There is a handsome recreation room, 24 feet high, 28x46. There are 48 water closets, with pipes to the sewers. Each floor is divided into 4 wards. There are 19 bath-tubs and 60 wash-bowls. There are 7 coil boxes, with 1,000 feet of pipe each for indirect heating, through 16 big tin stacks 45 feet long 5x13 inches. There are 400 registers and ventilators. There are 16 flights of 23 steps in the main staircase. A big iron sign, weighing 500 pounds, occupies the front facade. It will be painted black, with the letters and border gilded. It bears the letters "Nevada Insane Asylum" in an arch, with 1881 beneath. It was cast at the Reno Foundry by A. Fraser, as were the furnaces and all the cast work. The plumbing is of the best, as well as the tin used in the roof; and, in fact, everything. The sills, joists and braces are all better than the contract called for, and the work will be first-class. The Superintendent, Mr. Curtis, says the cost will not vary a thousand dollars from his first estimates.

A Rich Gravel Mine.

A dispatch from Downieville says that the Bald Mountain Extension Company of Forest City has cleaned up within the past few days 179 ounces, valued at $3,222. The prospect now is bright for heavy dividends for the fortunate stockholders in the early spring.

Strogoff.

The old California Theater in San Francisco will be opened under the management of J. H. Haverly on December 24th with "Michael Strogoff," a grand spectacular drama with five acts and ten tableaux.

Hatch vs. Nevada and Oregon R. R.

In the suit of A. J. Hatch against the Nevada and Oregon Railroad Company, wherein default and judgment was entered against the Company, an order of the District Court was this morning filed in the Clerk's office setting aside the default and judgment entered in the case. Readers of the GAZETTE will remember that when the suit was commenced an attachment was issued against the property of the company, and to prevent a levy of the writ the company gave a bond, with A. H. Manning, W. F. Berry and C. A. Bragg as sureties. After default and judgment entered in favor of Hatch against the company, suit was at once instituted against Manning, Berry and Bragg on their bond for the amount of the judgment and costs, about $15,000. The order made to-day, which opens the default and sets aside the judgment, defeats the action now pending on the bond.

An Omniverous Cow.

A cow was killed in the prime of life at Franktown recently. There was nothing remarkable about that, but hold on. This cow was not only full of honors and of years, but her stomach also contained a large quantity of nails, bits of glass, bones, a piece of gold, and various other rare and costly articles of *vertu*. She resembled a junk shop which had been established after years of accumulation, in a cowhide tent. The articles were all worn smooth by friction with the heavy consignments of hay which the beast was constantly receiving. Notwithstanding the handling of the bric-a-brac above mentioned, her teeth were perfectly sound, as she had never used tobacco in any form. The indications are, however, that she had been boarding at the back door of a drug-store or a saloon, where some wag probably wrung in an occasional bottle, or case of hardware on the unwary beast.

The annual meeting of the stockholders of the Nevada Central Railway, for the election of Directors to serve for the ensuing term, will be held at the office of the company in Battle Mountain, on Tuesday, Jan. 3, 1882.

The Con. Virginia Mining Company have sold their old wire cable, which has been on the reels over the old shaft unused for a long time past, to John Wolf. There are about 1,800 feet of it. The price paid was a cent a pound. Mr. Wolf is going to split it up and sell it to Mason Valley ranchers for fencing purposes.

Good Time at Glendale.

The dance given by the ladies of Glendale school district was largely attended and enjoyed by all who were fortunate enough to get there. The ladies were disappointed in two teams they expected to have, and in consequence several were left who intended going from here. The music was good, and the supper just what might be expected—the best that could have been served—turkey, chicken, cold meats, tea and coffee, and hot baked beans. The boss bean baker lives on the meadows, for a fact. They realized somewhere between $150 and $200 profit, which will go far towards repairing the school house.

Temperance Circle.

Dr. Scott will conduct a temperance meeting in the Baptist church Sunday night. Vital questions will be discussed. Solos will be sung by Mrs. Taylor, Miss Toombs and Prof. Stimson. Miss Minnie Scott will sing "The Drunkard's Child." Opportunity will be given to sign the pledge. Reasons will be given why the Reform Club should be sustained.

Correction.

Contractor Hymers desires the GAZETTE to correct a statement, recently made in the *Journal*, that the late storm damaged the Asylum. The building suffered no damage, which fact was published in these columns at the time.

Cause and Effect.

The main cause of nervousness is indigestion, and that is caused by weakness of the stomach. No one can have sound nerves and good health without using Hop Bitters to strengthen the stomach, purify the blood and keep the liver and kidneys active, to carry off all the poisonous and waste matter of the system. See another column.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife, who was always doctoring and never well, teased me so urgently to get her some I concluded to be humbugged again; and am glad I did, for in less than two months' use of the bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.

OZONE A New Process for Preserving all Perishable Articles, Animal and Vegetable, from Fermentation and Putrefaction, Retaining their Odor and Flavor.

"OZONE—Purified air, active state of oxygen."—Webster.

This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is simply and purely OZONE, as produced and applied by an entirely new process. Ozone is the antiseptic principle of every substance, and possesses the power to preserve animal and vegetable structures from decay.

There is nothing on the face of the earth liable to decay or spoil which Ozone, the new preservative, will not preserve for all time in a perfectly fresh and palatable condition.

The value of Ozone as a natural preserver has been known to our sober chemists for years, but, until now, no means of producing it in a practical, inexpensive, and simple manner have been discovered.

Microscopic observations prove that decay is due to septic matter or minute germs, that develop and feed upon animal and vegetable structures. Ozone, applied by the Prentiss method, seizes and destroys these germs at once, and thus preserves. At our offices in Cincinnati can be seen almost every article that can be thought of, preserved by this process, and every visitor is welcome to come in, taste, smell, take away with him, and test in every way the merits of Ozone as a preservative. We will also preserve, free of charge, any article that is brought or sent prepaid to us, and return it to the sender, for him to keep and test.

FRESH MEATS, such as beef, mutton, veal, pork, poultry, game, fish, &c., preserved by this method, can be shipped to Europe, subjected to atmospheric changes and return to this country in a state of perfect preservation.

EGGS can be treated at a cost of less than one dollar a thousand dozen, and be kept in an ordinary room six months or more, thoroughly preserved; the yolk held in its normal condition, and the eggs as fresh and perfect as on the day they were treated, and will sell as strictly "choice." The advantage in preserving eggs is readily seen; there are seasons when they can be bought for 8 or 10 cents a dozen, and by holding them, can be sold for an advance of from one hundred to three hundred per cent. One man, with this method, can preserve 5,000 dozen a day.

FRUITS may be permitted to ripen in their native climate, and can be transported to any part of the world.

The juice expressed from fruits can be held for an indefinite period without fermentation—hence the great value of this process for producing a temperance beverage. Cider can be held perfectly sweet for any length of time.

VEGETABLES can be kept for an indefinite period in their natural condition, retaining their odor and flavor, treated in their original packages, at a small expense. All grains, flour, meal, etc., are held in their normal condition.

BUTTER, after being treated by this process, will not become rancid.

Dead human bodies, treated before decomposition sets in, can be held in a natural condition for weeks, without puncturing the skin or mutilating the body in any way. Hence the great value of Ozone to undertakers.

There is no change in the slightest particular in the appearance of any article thus preserved, and no trace of any foreign or unnatural odor or taste.

The process is so simple that a child can operate it as well and as successfully as a man. There is no expensive apparatus or machinery required.

A room filled with different articles, such as eggs, meat, fish, etc., can be treated at one time, without additional trouble or expense.

☞In fact, there is nothing that Ozone will not preserve. Think of everything you can that is liable to sour, decay, or spoil, and then remember that we guarantee that Ozone will preserve it in exactly the condition you want it for any length of time. If you will remember this, it will save asking questions as to whether Ozone will preserve this or that article—it will preserve anything and everything you can think of.

There is not a township in the United States in which a live man can not make any amount of money, from $1,000 to $10,000 a year, that he pleases. We desire to get a live man interested in each county in the United States, in whose hands we can place this Preservative, and through him secure the business which every county ought to produce.

A FORTUNE Awaits Any Man who Secures Control of OZONE in any Township or County.

A. C. Bowen, Marion, Ohio, has cleared $2,000 in two months. $2 for a test package was his first investment.

Woods Brothers, Lebanon, Warren County, Ohio, made $6,000 on eggs purchased in August and sold November 1st. $2 for a test package was their first investment.

F. K. Raymond, Morristown, Belmont Co., Ohio, is clearing $2,000 a month in handling and selling Ozone. $2 for a test package was his first investment.

D. F. Webber, Charlotte, Eaton Co., Mich., has cleared $1,000 a month since August, $2 for a test package was his first investment.

J. B. Gaylord, 80 La Salle St., Chicago, is preserving eggs, fruit, etc., for the commission men of Chicago, charging 1½c. per dozen for eggs, and other articles in proportion. He is preserving 5,000 dozen eggs per day, and on his business is making $3,000 a month clear. $2 for a test package was his first investment.

The Cincinnati Feed Co., 498 West Seventh Street, is making $5,600 a month in handling brewers' malt, preserving and shipping it as feed to all parts of the country. Malt unpreserved sours in 22 hours. Preserved by Ozone it keeps perfectly sweet for months.

These are instances which we have asked the privilege of publishing. There are scores of others. Write to any of the above parties and get the evidence direct.

Now, to prove the absolute truth of every thing we have said in this paper, we propose to place in your hands the means of proving for yourself that we have not claimed half enough. To any person who doubts any of these statements, and who is interested sufficiently to make the trip, we will pay all traveling and hotel expenses for a visit to this city, if we fail to prove any statement that we have made.

How to Secure a Fortune with Ozone

A test package of Ozone, containing a sufficient quantity to preserve one thousand dozen eggs, or other articles in proportion, will be sent to any applicant on receipt of $2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfy himself as to the extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time to look the field over to determine what he wishes to do in the future—whether to sell the article to others, or to confine it to his own use, or any other line of policy which is best suited to him and to his township or county—we will enter into an arrangement with him that will make a fortune for him and give us good profits. We will give exclusive township or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. The man who secures control of Ozone for any special territory, will enjoy a monopoly which will surely enrich him.

Don't let a day pass until you have ordered a Test Package, and if you desire to secure an exclusive privilege we assure you that delay may deprive you of it, for the applications come in to us by scores every mail—many by telegraph. "First come first served" is our rule.

If you do not care to send money in advance for the test package we will send it C. O. D., but this will put you to the expense of charges for return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore, we can not give any attention to letters which do not order Ozone. If you think of any article that you are doubtful about Ozone preserving, remember we GUARANTEE THAT IT WILL PRESERVE IT, NO MATTER WHAT IT IS.

REFERENCES.

We desire to call your attention to a class of references which no enterprise or firm based on any thing but the soundest business success and highest commercial merit could secure.

We refer, by permission, as to our integrity and to the value of the Prentiss Preservative, to the following gentlemen: Edward C. Boyce, Member Board of Public Works; E. O. Eshelby, City Comptroller; Amor Smith, Jr., Collector Internal Revenue; Wulsin & Worthington, Attorneys; Martin H. Harrell and B. F. Hopkins, County Commissioners; W. S. Cappeller, County Auditor; all of Cincinnati, Hamilton County, Ohio. These gentlemen are each familiar with the merits of our Preservative, and know from actual observation that we have without question

THE MOST VALUABLE ARTICLE IN THE WORLD.

The $2 you invest in a test package will surely lead you to secure a township or county, and then your way is absolutely clear to make from $2,000 to $10,000 a year.

Give our full address in every letter, and send your letter to.

MISCELLANEOUS.

DR. SPINNEY

NO. 11 KEARNEY STREET,

San Francisco, Cal.

Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever aid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
